

**Town of North Rustico Council
REQUEST FOR DECISION**

Topic: Relocate Utility Pole to Property Line

Date: February 10 th , 2020	Request No: 2020-11 <i>(Office Use Only)</i>
---	--

Person: Betty Pound & Brian Cochrane	Representing: Ourselves
--	-----------------------------------

Background: Constructed a duplex at 32 + 34 Autumn Lane

Request: To have the electrical pole moved to proper location on property line.

Advantages	Disadvantages
	We have lost interested potential renters because of where the pole is now located.

Required Resources:	Contacted Maritime Electric – Their cost to resolve this is \$1,500 plus HST however there are additional costs to also move Bell and Eastlink’s lines.
----------------------------	---

Staff Comments	Background Information: In 2014, the Town developed these lots on Summer Street and Autumn Lane. The power poles were installed at that time. In October 2015, the Town increased the lot size by 10 feet to accommodate duplexes (as the lots were zoned R2 but were not proper size). The lot was purchased from Elizabeth (Betty) Pound in October 2016.
-----------------------	---

CAO’s Review / Comments	The pole was there when the lot was purchased.
